SUMMARY

Motivated and detail-oriented Full Stack Developer with a strong foundation in web development, recently completed a rigorous bootcamp with edX at UC Davis. Skilled in front-end and back-end technologies, passionate about building efficient and scalable web applications, and eager to contribute to a dynamic development team.

TECHNICAL SKILLS

Technical Languages: HTML, CSS, JavaScript

Applications/Frameworks/Libraries: React, Angular, Node.js, Express.js, MySQL, MongoDB, Git, GitHub, Jest, Mocha

PROJECTS

Slashline Stats | github.com/juanycorn/slash-line-stats | elindstr.github.io/slash-line-stats/

- web application that provides real time Major League Baseball slash line stats for user-generated head-to-head comparisons
- Led the development of the styling using css and Bootstrap
- HTML, CSS, Javascript, Bootstrap

Sunnyside | github.com/juanycorn/sunnyside | sunnyside-9baa1e3e.herokuapp.com

- a cloud-based Enterprise Resource Planning (ERP) system for any small business to manage employee, customer, and product databases
- Designed and implemented styling with bootstrap and implemented back-end logic.
- MySQL, Sequelize, Node.js, Express.js, Handlebars, Stripe, Nodemailer, Bcrypt, HTML, CSS.

Retroreview | github.com/juanycorn/retroreview | retroreview-fnal.onrender.com

- all-in-one stop for video games, and their reviews. You can browse the site for new games, or leave reviews on beloved games of yours
- Developed the entire front end and added logic to connect the front end to the back end
- HTML, CSS, Javascript, Bootstrap, Vite, Node.js, GraphQL, express.js, MongoDB, Semantic UI

EXPERIENCE

Production Manufacturing Associate
Tesla Motors

2021 – 2024

Lathrop, CA

- *Manufactured battery modules, ensuring adherence to production specifications and quality standards.*
- *Operated and maintained specialized machinery and equipment for battery module assembly.*
- *Conducted regular quality inspections and tests on battery modules to identify and rectify any defects or inconsistencies.*
- *Utilized critical thinking and problem-solving skills to troubleshoot and resolve issues in the production line, minimizing downtime.*
- *Communicated effectively with team members and supervisors to coordinate workflow and meet production targets.*

Key Accomplishments:

- **Increased Production Efficiency:** *Implemented process optimizations that resulted in a 15% increase in battery module production efficiency, reducing downtime and maximizing output.*
- **Quality Improvement:** *Contributed to a quality assurance initiative that reduced defects in battery modules by 20%, leading to higher customer satisfaction.*
- **Leadership and Training:** *Trained and mentored new employees on battery module manufacturing processes, improving team competency and productivity.*

General warehouse Associate
The Home Depot

2017 – 2021

Stockton, CA

Responsibilities:

- *Operated forklifts and other material handling equipment to pick and transport orders accurately and efficiently.*
- *Followed detailed instructions to locate, pick, and prepare products for shipment, ensuring accuracy and timeliness.*
- *Maintained inventory accuracy by performing regular cycle counts and updating inventory records.*

Key Accomplishments:

- **Efficiency Improvement:** *Consistently exceeded picking and packing targets by 10%, contributing to overall warehouse efficiency.*
- **Safety Recognition:** *Recognized for maintaining a perfect safety record with zero incidents, receiving the Safety Star Award.*

EDUCATION

Full Stack Web Development Boot Camp Certificate: *UC Davis, EDX*

An intensive program focused on gaining technical programming skills in HTML5, CSS3, JavaScript, JQuery, Bootstrap, Node.js, MySQL, MongoDB, Express, Handelbars.js, and ReactJS.
